- ☒ GRAPHIC DESIGN

„Due to her ability to think conceptually, creatively and logically, she always had excellent solutions for the challenges that occurred.“

Subiculum Interactive

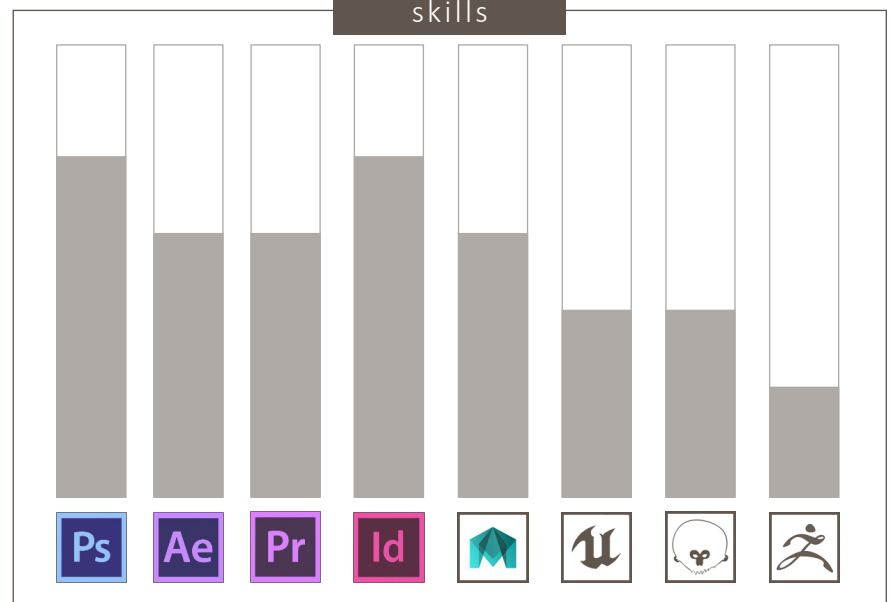

I am a passionate graphic designer in search for new interesting projects. I'm very interested in illustration and concept art but can also add animating, modeling and video editing to my skills. My heart beats for art and design, I'm organized and I love trying new things and improving my skills. In addition, I feel most comfortable working in a team.

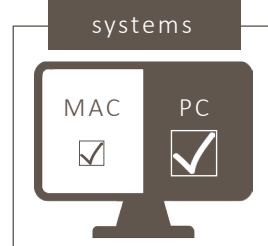

„She worked very reliably and exact even under difficult circumstances and finished all tasks in an excellent way“
